KRISTALIA®

Pulp

Designer Christophe Pillet

A structure that flows from a single surface, moulded according to the shapes of the body. A spirited yet all-embracing emotion. A new character in the home environment: Pulp, a chair designed by Christophe Pillet and produced by Kristalia in polypropylene in various colours. It was a design and technological challenge for a product designed to be easy to clean, resistant to wear and tear and stackable, and ideal for the contract furnishing sector and community areas.

Finish:
White polypropylene (PP01)
Black polypropylene (PP03)
Beige polypropylene (PP05)
Red coral polypropylene (PP07)
Brown polypropylene (PP08)

Can be used outdoors as well.

Stacking chair ( )

| Code	Finish	Vol.
05PLP01	polypropylene	0.5

4 chairs in each package

! Compared to other colours, black enhances the natural "shading" more in the material, which is to be considered normal.

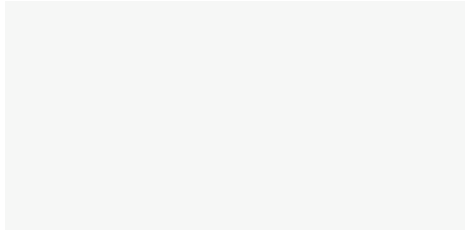

4x4 Minimum order 4 pieces or 4 pieces in the same colour.
