

Day Systems

If the bedroom is the intimate room, the living room is the place for an active life. Here, we let ourselves be entertained or relax, read a book in silence or share our thoughts out loud, meet friends or play with our children. A dynamic and functional space that reflects our social self, because it is here that the objects we love and that define us find their place, as in a wonder-room where we are the curators.

Design: Altherr Désile Park, ruga.perissinotto & Sciuto Architetti

Se la camera da letto è la stanza dell'intimità, il living è il luogo della vita attiva. È qui che ci lasciamo intrattenere o ci rilassiamo, leggiamo un libro in silenzio o condividiamo i nostri pensieri a voce alta, incontriamo gli amici o giochiamo con i figli. Uno spazio dinamico e funzionale che rispecchia il nostro io pubblico, perché è qui che trovano posto gli oggetti che amiamo e ci caratterizzano, come in una wunderkammer di cui siamo i curatori.

A natural texture is never one colour only. Marble-effect ceramic tiles have streaks, whereas wood features grain, just as skin has moles and wrinkles. A range of dark shades with a touch of colour for the living area. The keyword is authenticity.

Il colore di una texture naturale non è mai uno solo. La ceramica effetto marmo ha le striature e il legno venature, come la pelle ha nei e rughe d'espressione. Per la zona giorno, una palette di tinte scure con un accento di colore. Parola chiave, autenticità.

The colour of a shadow, of wet earth, of a deep cavity. The intensity of brown is the mystery of a world that dark colours recreate with elegance.

You fall in love with one colour and everything else follows. Pink, yellow, green, blue. And what follows magically harmonises. Doesn't nature work like that too?

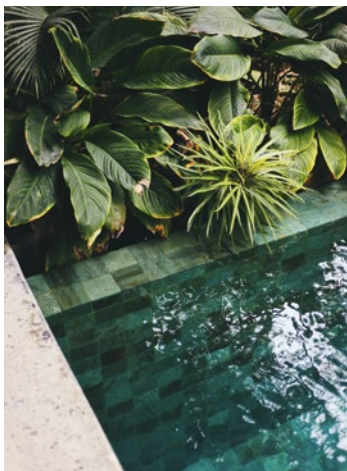

Innamorarsi di un colore e far seguire tutto il resto. Rosa, giallo, verde, blu. E quel che segue magicamente in armonia. Non è così che lavora anche la natura?
