

Avenue Cabinets

The Avenue modular system is complemented with a collection of cupboards with a minimalist clear-cut design, in which the 45° joints of the structure and the door make volumes more streamlined. The dimensions and finishes of the elements replicate those of the day system, harmonizing with them in a natural way. Combinations of closed units and open metal elements are designed to create an interesting interplay of proportions and volumes, open and closed spaces, balancing aesthetic appeal with functionality.

DESIGN ruga.perissinotto & Sciuto Architetti

Il sistema modulare Avenue si completa con una collezione di madie dal design pulito ed essenziale, in cui le giunzioni a 45° della struttura e dell'anta snelliscono ulteriormente i volumi. Gli elementi replicano nelle dimensioni e nelle finiture quelli del sistema giorno, con cui si armonizzano in modo naturale. Le combinazioni tra moduli chiusi ed elementi aperti in metallo sono state studiate per offrire un interessante gioco di proporzioni e volumi, pieni e vuoti, in equilibrio tra estetica e funzionalità.

ruga.perissinotto & Sciuto Architetti

The ruga.perissinotto studio was established after a meeting between Alessandro Ruga and Carlotta Perissinotto in London in 2010. Inspired by a versatile approach to design issues, they collaborate with various companies in the furniture district.

The Sciuto Architetti studio, founded by Pierangelo Sciuto in 1988, is renowned for a special focus on research and changing trends.

Lo studio ruga.perissinotto nasce dall'incontro tra Alessandro Ruga e Carlotta Perissinotto, avvenuto a Londra nel 2010. Animato da un approccio trasversale alle tematiche progettuali, collabora con diverse aziende del distretto del mobile.

Lo studio Sciuto Architetti, fondato da Pierangelo Sciuto nel 1988, si caratterizza per la particolare attenzione alla ricerca e all'evoluzione dei trend.
