

BONALDO

Slot coffee table

Designer: **Giuseppe Viganò**

For this collection, designer Giuseppe Viganò has drawn inspiration from the world of geometry, from which he has borrowed different shapes and harmonized them in a single design. The collection of living room sofa side tables plays with minimal shapes expressed in space: the horizontal top is supported by two stands with a characteristic H shape, one

vertical and one slanted, united by a transverse element that conveys a sensation of movement. The legs and central stem are made of metal, while the top with rounded corners is available in numerous ceramic and crystal finishes, creating combinations of materials that are always different and can respond to any furnishing and style requirement.
