

BONALDO

Casablanca

Casablanca is a rug with a soft and velvety surface, thanks to its composition of tencel and cotton. Tencel is a fiber obtained from the cellulose of eucalyptus and beech, natural raw materials that give the fabric elasticity and a silk-like sheen, as well as being environmentally friendly and completely recyclable.

Casablanca is available in four monochrome versions: Essential Taupe, Iced Moon, Moon Eclipse and Pink Sand, rectangular or round, to fit any context and thus create refined and modern environments with a design which evokes a timeless appeal.
